Promotion & Linkage of Disable SHGs

Under the Financial Inclusion programme, the NABARD, Regional office, Bhubaneswar supported (SNDAYP) for promoting 100 differently able persons organizations (DPO) self help groups in Puri Sadar block of Puri district. The SNDAYP has already formed 100 groups of disabled persons and out of it 81 groups have opened their bank accounts.

Disable SHG members submitting their documents for bank linkage

The programme further aimed to link DPO with banks to access loan facilities for their economic activities. Now, training is underway to orient them how to write the cash book and minutes of the meeting. It is hoped that after the training with the enhanced skill and capacity, the DPOs will be able to lobby with various Govt. line departments to enjoy their legal rights and entitlements. The programme also aimed to strengthen the capacity of DPOs and to provide different livelihood options.

Support Service cum Learning Center for the Children with Disabilities

SNDAYP is extending support services to children with disability through six support service cum learning centers in Puri Sadar block. A total of 118 cases attended the centers during the reporting period. During their visits, Physiotherapy, Occupational therapy, special education and community based rehabilitation services were given through trained workers. Different livelihood training, deaf teaching to deaf children through Indian Sign Language (ISL), is in progress. Monthly meet of deaf parent association (DPA), Disable Peoples Organization (DPO) and deaf club federation meeting is held with the support of project staffs.

UK Volunteer Demonstrating on CP

The support service center also helps Children and their parents for easy accessibility, free treatment and education through specially trained teachers for their proper rehabilitation. The therapy offers, helping children for their ADLS by themselves. The community is getting benefits for differently able persons, women, children and aged persons in their locality. Now due to continuous training and awareness, the community (DPO/DPA) is de-

Special teacher providing Therapy

manding their rights and entitlements from governmental officials directly. The centers have enabled community people to enhanced awareness, confidence.

Physiotherapy Demonstration & (First aid Medicine) Health Checkup Camp

Physiotherapy demonstration & (first aid medicine) health checkup camps were held in 9 GP i.e Rua, Chalisibatia, Balipada, Raigorada, Baliput, Gadamurgasira, Kerandipur, Bhailipur and Pratapramachandrapur Gram Panchayats in Puri sadar block. The camps were facilitated by certified physiotherapist namely Manosini Swain. Good number of patients turned out during the camp and each case was discussed at length. The application of various body movements under yoga Aasan and physical exercise were explained by physiotherapist. Medicine was also supplied to the patients as per medical prescription of the doctor. The total 418 patients who attended the camp,

Physiotherapy at Cluster level

249 were male, 169 female. It is seen that the patents are not much aware on the exact nature of problems. In such situation, they are requested to come to the main resource centre to have through check up. So after a continuous follow up and practice, better results are found. They were given sensitization not to think differently, that the physiotherapy can harm in future or very expensive. These camps were successfully conducted with the cooperation of local volunteers and community leaders.

The home based therapy programme is being supported by The Hans Foundation, based at New Delhi. There are two types of activities included under home based activities for Children with disabilities i.e. physical exercise and educational development.

Mother taking responsibility

All the children with disability cannot attend the support service center due to their complexities, their family members are also not supporting to take the child to the center. In the mean time our CBR worker and special educators

extending the home base therapy for physical development, educational intervention. Activities Daily Living Skill (ADL) and behavioral modification etc are taken into care by the CBR workers. This process has sent a positive support and impact on parents and family.

CBR Worker Exercising a CP Child

Sri Nrusingha Dev Anchalika Yuba Parisada (SNDAYP) has been instrumental for the development of weaker sections of the society, particularly the women and children. We implemented a Micro Entrepreneurship Development programme for 30 SHG women coming from lower socioeconomic background to make handmade wooden dust and paper patch for their economic stability and self reliance. The programme is supported by National Bank for Agriculture and Rural Development

Trainer giving tips to make toys to trainees

(NABARD). The selection of women is done from rural areas from lower socioeconomic background. These women were desirous to set up small cottage industry. A training of the trainer (TOT) programme was held. The training lasted for 12 days at Radhika Charitable trust, Ganga Narayanpur, near Chandanpur, Puri. The initial first six days of training, was on how to make toys out of paper. The remaining six days spent on finishing the products. These toys are cheaper in comparison to open market. Further, it can be sold out by these women in the local market without much external support.

Competition makes children aware

On 28th February 2016, an essay writing and debate competition programme held, for college and school students. It was supported by Food Supplies & Consumer Welfare Department, Government of Odisha. The programme venue was at, Madhusudan Institute of Cooperative Management, Bhubaneswar. SNDAYP got invitation to organize similar programme at

Children showing Performance

UGUP School of Puri sadar block, Puri. More than 61 participants took part in it, coming from different colleges / schools of Puri district. The first and second prize winner candidates were nominated to represent state level competition.

On 15th of March 2016, “The World Consumer Rights Day” was observed at youth hostel Puri. The programme was chaired by civil supply officer, Puri. The winners of essay and debate completion were rewarded with trophy and certificates.

Awareness meeting on Deafness & Remedy

The people need to be sensitized and oriented while dealing with the disabled people. SNDAYP is organizing a sensitization training for community people to make them understand on what is deafness, its root cause, how to handle such cases, how it can be reduced from the childhood. How the incidence of disability can be reduced and the preventive aspects to be taken care to reduce the disease

burden. The programme is supported by DCW. Under the programme all the community people in 26 gram Panchayats

are getting oriented. In last three years

SNDAYP has rehabilitated 168 DCYPs in Puri sadar block of Puri

district. Now we have completed the target of 26 GPs of Puri sadar block in this quarter in Puri district. Our experience has showed positive impact on the community on deafness.

GP level Awareness Meeting

Our DRM in NFDY Meet at Kolkata

4th National Forum for Deaf Youth (NFDY) workshop held on 26th to 28th February, 2016 at Kolkata was initiated by the DCW participating by all the DRMs of partner organization of India. 2 DRM and the project coordinator representing from SNDAYP attended the workshop. The main aim of this workshop was to strengthen the mental capacity and future plan

of deaf young to integrate them in the

community. The DRMs playing impacting role in the community level to find out the difficulties and make a platform for the deaf young to overcome from all the difficulties.

Participants of NFDY at Kolkata

Indian Sign Language creates Identity

Training to DCYP is a continuous and ongoing programme of SNDAYP. During the reporting quarter, six training sessions are held at our training centre to orient them on the importance of

Children Practicing ISL with DRM

now communicating, expressing their feelings emotions and share their views with others in a good manner due to launch of Indian Sign Language (ISL). So these children and young people are not feeling isolated, their friend circle is developing because they also interested to learn this interesting language to assist their friends and fellows.

CONFIDENCE PROVIDES BETTER CONSEQUENCE

Kahna showing the Mobile number on slate

Kahna Baral 6 year, is hearing impaired. He stays with his father Sri Sikhar Baral (37) mother Mrs. Bhanumati Baral (35) in Moahanty Sahi village of Basudevpur panchayat of Puri sadar block. Kahna comes from a joint

family of 9 members. The boy was diagnosed as pre lingual deaf and severe hearing loss by

birth and having 100% of disability. Though on the advice of medical doctors, the mother took all the immunization schedules during her pregnancy, but just before five day to her delivery, she suffered from severe fever. It resulted in severe pain and finally delivered the child in medical hospital. After 3 days, his head was full of wound, the family members frightened with seeing the situation of the baby, consulted the doctor. The doctor prescribed medicinal treatment and the case was under control day by day. At the age of six months the child was being tested for his BERA for his head following the suggestion of the doctor.

Mr. Sikhar Baral and his family are dependent on agriculture practices which are purely dependent on seasonal climatic condition. The family is living in mud thatched house and water, sanitation life style is not satisfactory. The family education is very little and all were engaged in cultivation and house work. The boy was gradually developed abnormality. He was not brought to any doctor after the medicinal reaction. The child was not mingling and started avoiding friends of his age. The family was worrying too much how to reach at the child's need and to give him a proper guidance.

In the mean while SNDAYP, a social development organization working for marginalized and disabled children, women and one of the projects was implemented on December 2012, in Puri sadar block on rehabilitation of deaf children. Kahna was spotted by the organization in 2013. The project staff arrived at home and prepared IRP and IEP for the child. But in reality the child was so scared to sit and listen from the CBRW and started cry.

Kahna was admitted to AWW center but he had no preschool skill, as the AWW was equally ignorant how to handle such child. The child was brought to the project fold and due to continued intervention and follow up by CBRW; however, the child had difficulty in communication things and his feelings. In the mean time, the family members were motivated and had a positive outlook towards the organization. The confidence level of the parents went up within three month of intervention, he started identifying objects. Now he has acquired capacity of telling name, address with phone number, number concept 1 to 100, middle, after and before number, single digit addition and subtraction, ascending and descending order, family relation,(animals, fruits and vegetables, body parts, furniture) each of 10 words, detection writing up to 10 word. He has capacity of 50 words on Indian Sign Language. He has good social behavior and Knowledge Practice and Aptitude.

Continuing education with CBR Worker

The parents of Kahna were also attending ISL classes regularly and also playing vital role in Deaf Parents Association (DPA). His mother also attending TLM training, Summer camp and winter camp and different activities of the project.

The child is now reading in mainstream school of Jena Sahi in class 1. The school teachers are very cooperative and very happy with the progress of the child. The teachers are giving thanks to the field staffs for the achievement of the Kahna in school exam. Now Kahna have good communication and relationship with his friends in school. The friends and peers groups are also making good sign and communication with Kahna.

The DCW project technical advisor Mr. Supriyo Kumar visited the field area of SNDAYP and attended a home visit to Kahna Baral and was satisfied with his performance. Finally he suggested that keep leveling of words, so that he can progress rapidly by seeing the objects. Mr. Debasish Biswas also commented to make sequential story and avoid him from family close bonding because he is single male child of the parents.

Views expressed by his mother like **“Mo pua gote bada chakiri kariba o samastanku, muka badhira nuhen boli pramana kari dekhei deba.”**

“Kahna will get a big job and proved in front of all that he is not a deaf but a normal boy.”
